# **ZONE Food Blocks**

Here is a guide on Zone Food Blocks to help you choose the right amount of foods to keep you In the Zone. This list contains portioned amounts of proteins, carbohydrates, and fats that will keep you In the Zone. From this list, most women should choose 3 blocks of protein, 3 blocks of carbohydrate, and 3 blocks of fat for each meal. Each selection in the Food Block list is one block. For example, one ounce of chicken equals one block, a woman should have 3 ounces of chicken. Most men should choose 4 blocks of protein, 4 blocks of carbohydrate, and 4 blocks of fat for each meal. Then choose 1 block of each for mid-afternoon and pre-bedtime snacks. See examples below.

To find out how many blocks you need per day click here - **protein calculator** - this will tell you how many protein blocks you need per day, this number is also how many carbohydrate and fat blocks you need. If your calculated protein number is 15 blocks per day, then you will also need 15 carbohydrate and 15 fat blocks per day.

#### Sample Lunch for Women:

3 protein blocks = 3oz. chicken

3 carbohydrate blocks = 3 cups asparagus

3 fat blocks = 1 tsp. olive oil

#### Sample Snack:

1 protein block = 1oz. canned tuna in water

1 carbohydrate block = 2 cups celery

1 fat block = 1/3 tsp. olive oil

**Protein** 

Turkey breast, skinless

Turkey, ground

Turkey breast, deli-style.
